Product Terminator

Revision date 03 February 2021

Revision 1

# **Safety Data Sheet (SDS)**

according to Regulation (EC) No. 1907/2006

# Section 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

Product name Terminator

Other means of identification HJ10-003U-9003-ADVW

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified usesPaint or paint related material.Uses advised againstNo uses advised against are identified.

## 1.3 Details of the supplier of the safety data sheet

Supplier FSW Coatings Ltd

Virginia Co Cavan Ireland

Tel: 353 49854 7209

Contact person info@fsw.ie

1.4 Emergency telephone number

Emergency telephone

National emergency telephone

number

+ 353 49854 7209 (Between 0900 and 1700 hrs Monday-Friday)

Outside those hours, contact National Poisons Information Centre, Beaumont Hospital. Members of Public: +353 (1) 809 2166. (8.00 a.m. to 10.00 p.m. 7 days a week) Healthcare

Professionals: +353 (1) 809 2566 (24 hour service)

## **Section 2: Hazards identification**

# 2.1 Classification of the substance or mixture

Classification (EC 1272/2008)

Physical and chemical hazards Flam, Liq 2- H225 Human health STOT SE 1 - H370 Environment Not classified

### 2.2 Label elements

**Contains** methanol

Label in accordance with (EC) no. 1272/2008

Signal word Danger

**Hazard statements** H225 Highly flammable liquid and vapour.

H370 Causes damage to organs.

Precautionary statements Prevention

P210 Keep away from heat/ sparks/open flames/hot surfaces. — No smoking.

P233 Keep container tightly closed.

P260 Do not breathe dust/fume/ gas/mist/vapours/spray.

P280 Wear protective gloves/ protective clothing/eye protection/face protection.

Response

P307 + P311 IF exposed: Call a POISON CENTER or doctor/physician.

Storage

P403 + P235 Store in a well-ventilated place. Keep cool.

EUH statements

EUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do not

breathe spray or mist.

### 2.3 Other hazards

None known.

## **Section 3: Composition/information on ingredients**

## 3.1 Substance

Not applicable.

## 3.2 Mixtures

Name	Product identifier	Regulation (EC) No 1272/2008	%
IEThanol	CAS-No.: 64-17-5 EC No.: 200-578-6	Flam. Liq 2- H225	60-70%
Ifitaniim dioxide	CAS-No.: 13463-67-7 EC No.: 236-675-5		10-20%
Imethanol	CAS-No.: 67-56-1 EC No.: 200-659-6	Flam. Liq 2- H225, Acute Tox 3 - H301, Acute Tox 2 - H310, Acute Tox 3 - H331, STOT SE 1 - H370	5-10%

The full text for all hazard statements are displayed in section 16.

**Composition comments** The data shown are in accordance with the latest EC Directives.

Methanol: Specific Concentration Limits = STOT SE 1; H370: C >= 10 %, STOT SE 2; H371:

 $3 \% \le C \le 10 \%$ .

This mixture is not classified as a carcinogen due to the liquid state of the product. H351 as related to Titanium Dioxide is only applicable in powdered form.

### **Section 4: First aid measures**

### 4.1 Description of first aid measures

clothing and wash it before reuse. First aider: Pay attention to self-protection!

InhalationIf inhaled, remove to fresh air. Keep comfortable for breathing. Seek medical attention.IngestionDO NOT INDUCE VOMITING! Promptly get affected person to drink large volumes of water

to dilute the swallowed chemical. Get medical attention immediately! Rinse mouth

thoroughly. Consult a physician for specific advice.

Skin contact Remove affected person from source of contamination. Remove contaminated clothing. Wash

the skin immediately with soap and water. Get medical attention if any discomfort continues.

**Eye contact** If this product contacts the eyes, gently flush eyes with water for at least fifteen (15)

minutes, lifting the upper and lower eyelids occasionally. Remove contact lenses if worn.

Subsequently consult an ophthalmologist.

# 4.2 Most important symptoms and effects, both acute and delayed

General information The severity of the symptoms described will vary dependant of the concentration and the

length of exposure.

**Inhalation** May cause narcotic effects in high concentration. Dizziness, double vision and other

 $characteristics\ typical\ of\ drunkeness,\ vomiting,\ loss\ of\ consciousness.$ 

**Ingestion** Prolonged exposure to product may cause irritation to lining of the mouth. May cause nausea

or vomiting. Ingestion of large amounts may cause unconsciousness

**Skin contact** Prolonged contact may cause redness, irritation and dry skin. Absorption through the skin

may be fatal.

Eye contact May cause temporary eye irritation. There may be severe pain. The eyes may water

profusely.

### 4.3 Indication of any immediate medical attention and special treatment needed

Treat Symptomatically. Notes to the physician

### Section 5: Firefighting measures

## 5.1 Extinguishing media

Extinguishing media Use fire-extinguishing media appropriate for surrounding materials. Use water spray,

alcohol-resistant foam, dry chemical, carbon dioxide (CO2).

Unsuitable extinguishing media High volume water jet.

# 5.2 Special hazards arising from the substance or mixture

**Hazardous combustion products** Unusual fire & explosion hazards

Exposure to fire may cause containers to rupture/explode.

During fire, gases hazardous to health may be formed. Oxides of carbon.

Specific hazards

The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures. Vapours may proceed on the ground over great distances and cause fire

and backflashes.

# **5.3 Advice for firefighters**

Special fire fighting procedures

If possible, fight fire from protected position. Ventilate closed spaces before entering them. Keep up-wind to avoid fumes. Avoid breathing fire vapours. Containers close to fire should be removed immediately or cooled with water if safe to do so. Do not allow fire water to penetrate into surface or ground water. Fire residuals and contaminated extinguishing water

must be disposed of in accordance with the regulations of the local authorities.

Protective equipment for firefighters Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for firefighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. Hazchem-Code: •2YE

### Section 6: Accidental release measures

## 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel Avoid any contact with the skin and eyes. Avoid inhaling the vapors. Eliminate all sources of

ignition. Ensure adequate ventilation. Wear protective clothing as described in Section 8 of this safety data sheet. Keep unnecessary people away; isolate hazard area and deny entry. Take off contaminated clothing and shoes immediately. Wash contaminated clothing before

Follow safe handling advice and personal protective equipment recommendations for normal For emergency responders

use of product.

# **6.2 Environmental precautions**

**Environmental precautions** Do not discharge into drains, water courses or onto the ground. Spillages or uncontrolled

discharges into watercourses must be IMMEDIATELY alerted to the Environmental Agency

or other appropriate regulatory body

## 6.3 Methods and material for containment and cleaning up

Spill clean up methods Absorb spillage with non-combustible, inert absorbent material. Collect spillage in

containers, seal securely and deliver for disposal according to local regulations. Clean affected area. Use non-sparking hand tools and explosion proof electrical equipment for clean up. In case of spills of large quantities: Dam spills. Beware of reignition. In case of greater quantities: Collect mechanically (use only explosion-proof equipment when pumping

out).

## 6.4 Reference to other sections

Reference to other sections For waste disposal, see section 13. See section 1 for emergency contact. For personal

protection, see section 8.

# **Section 7: Handling and storage**

### 7.1 Precautions for safe handling

### Handling

Keep away from heat, sparks and open flame. Avoid spilling, skin and eye contact. Ventilate well, avoid breathing vapours. Use approved respirator if air contamination is above accepted level. Do not use in confined spaces without adequate ventilation and/or respirator. Wear suitable personal protective equipment, as detailed in Section 8. Wash thoroughly after handling. Do not eat, drink or smoke when using the product. Keep out of reach of children and pets. Wash hands thoroughly after handling. Remove and wash contaminated clothing before reusing. Work place should be equipped with a shower and an eye rinsing apparatus. Protect against static electricity. Use non sparking tools/explosion proof equipment and lighting system. Do not weld. Keep away from ignition sources. In partially filled containers explosive mixtures may form.

## 7.2 Conditions for safe storage, including any incompatibilities

Storage precautions Store in tightly closed original container in a dry, cool and well-ventilated place. Keep in an

area equipped with solvent resistant flooring. Keep the product in its original container. Keep away from direct sunlight. Keep upright. Explosion protection required. Keep away from food, drink and animal feeding stuffs. Do not store together with strong oxidizing

agents, strong acids, anhydrides or alkali metals.

**Storage class** Flammable liquid storage. Unsuitable materials: various plastics, rubber.

7.3 Specific end use(s)

**Specific end use(s)** The identified uses for this product are detailed in Section 1.2.

**Usage description** Use only according to directions.

# Section 8: Exposure controls/Personal protection

### **8.1 Control parameters**

Component	STD	TWA (	(8 Hrs)	STEL (1	l5mins)	Notes
Ethanol	OEL			1000 ppm		
Ethanol	WEL	1000 ppm	1920 mg/m <sup>3</sup>			
titanium dioxide	OEL		10 mg/m <sup>3</sup>			
titanium dioxide	OEL		4 mg/m <sup>3</sup>			
titanium dioxide	WEL		10 inhalable aerosol mg/m³			
titanium dioxide	WEL		4 respirable aerosol mg/m³			
methanol	OEL	200 ppm	260 mg/m <sup>3</sup>			Sk, IOELV
methanol	WEL	200 ppm	266 mg/m <sup>3</sup>	250 ppm	333 mg/m <sup>3</sup>	Sk

**Ingredient comments** 

Ireland, Occupational Exposure Limits 2020.

### **8.2 Exposure Controls**

Respiratory equipment

**Engineering measures** Provide adequate general and local exhaust ventilation. Provide explosion proof ventilation

for high concentrations.

Not normally required if good ventilation is maintained. Wear a NIOSH/MSA or European

EN-149-approved respirator if conditions generate vapors or mists. Use filter type A (= against vapours of organic substances) according to EN 14387.

Hand protection against vapours of organic substances) according to EN 14387.

Where hand contact with the product may occur the use of gloves approved to relevant

standards (e.g. Europe: EN374) is recommended. Butyl rubber gloves are recommended. Minimum layer thickness: 0.5 mm. Minimum breakthrough time / gloves: 480 min. Unsuitable materials: natural rubber, nitrile rubber, PVC. Consult manufacturer for specific advises.

advice.

Eye protection Wear safety goggles in accordance with EN166. Eye protection equipment should be tested

and approved according to regulations applicable, like NIOSH (US) or EN 166 (EU).

Other protection

Use engineering controls to reduce air contamination to permissible exposure level.

Use engineering controls to reduce air contamination to permissible exposure level. In case of handling larger quantities: flame retardant protective clothing, antistatic. The selected

clothing must satisfy the European norm standard EN 943.

Hygiene measures DO NOT SMOKE IN WORK AREA! Wash at the end of each work shift and before eating,

smoking and using the toilet. Wash promptly if skin becomes wet or contaminated. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke.

**Process conditions** Ensure that eye flushing systems and safety showers are located close by in the work place.

# Section 9: Physical and chemical properties

# 9.1 Information on basic physical and chemical properties

AppearanceLiquid.ColourWhiteOdourAlcohol-like.

Odour threshold - lower No information available as testing has not been completed.

**Odour threshold - upper**No information available as testing has not been completed.

pH-Value, Conc. Solution 7.00

**pH-Value, Diluted solution**No information available as testing has not been completed.

Melting point -112°C

Initial boiling point and boiling

range

78°C

Flash point 18°C

**Evaporation rate** No information available as testing has not been completed.

**Flammability state** Highly flammable liquid and vapour.

Flammability limit - lower(%) No information available as testing has not been completed.

Flammability limit - upper(%) No information available as testing has not been completed.

Vapour pressure 58 mbar

Vapour density (air=1) No information available as testing has not been completed.

Relative density 1.34

Bulk density

Not applicable.

Solubility

Slightly soluble

**Decomposition temperature** No information available as testing has not been completed.

Partition coefficient; n-

Octanol/Water

No information available as testing has not been completed.

Auto ignition temperature (°C) No information available as testing has not been completed.

Viscosity Non-viscous

**Explosive properties** Formation of explosive vapour is possible.

Oxidising properties The product does not meet the criteria to be classified as oxidising.

9.2 Other information

Molecular weight Not applicable.

Volatile organic compound No information available as testing has not been completed.

Other information Not oxidising. Refraction index: 1.362 n20/D (ISO 5661) (20°C)

## **Section 10: Stability and reactivity**

10.1 Reactivity

**Reactivity** Highly flammable liquid and vapour. Vapours may form explosive mixture with air.

10.2 Chemical stability

Stability Stable under normal temperature conditions and recommended use.

10.3 Possibility of hazardous reactions

**Hazardous reactions** For information on hazardous reaction see section 10.1.

Hazardous polymerisationUnknown.Polymerisation descriptionUnknown.

10.4 Conditions to Avoid

Conditions to avoid Keep away from heat, sparks and open flame. Avoid exposure to high temperatures or direct

sunlight.

10.5 Incompatible materials

Materials to avoid Strong oxidising substances. Strong acids.

10.6 Hazardous decomposition products

Hazardous decomposition products When heated, vapours/gases hazardous to health may be formed

## **Section 11: Toxicological information**

### 11.1 Information on hazard classses as defined in Regulation (EC) No. 1272/2008

**Toxicological information** No toxicological information for the overall finished product.

Acute toxicity (Oral LD50)

Acute toxicity (Dermal LD50)

Acute toxicity (Inhalation LD50)

No information available as testing has not been completed.

No information available as testing has not been completed.

No information available as testing has not been completed.

**Serious eye damage/irritation** May cause temporary eye irritation.

**Skin corrosion/irritation** The product is not classified as a skin corrosion/irritation hazard.

**Respiratory sensitisation**The product is not classified as a respiratory hazard. **Skin sensitisation**The product is not classified as a skin sensitisation hazard.

**Germ cell mutagenicity** The product is not classified as a mutagen.

**Carcinogenicity** The product is not classified as a carcinogen hazard.

Specific target organ toxicity - Single exposure:

**STOT - Single exposure**The product is classified as a single exposure specific target organ toxin.

Specific target organ toxicity - Repeated exposure:

**STOT - Repeated exposure** The product is not classified as a repeat exposure specific target organ toxin.

**Inhalation** May cause narcotic effects in high concentration. Dizziness, double vision and other

characteristics typical of drunkeness, vomiting, loss of consciousness.

**Ingestion** Prolonged exposure to product may cause irritation to lining of the mouth. May cause nausea

or vomiting. Ingestion of large amounts may cause unconsciousness

**Skin contact** Prolonged contact may cause redness, irritation and dry skin. Absorption through the skin

may be fatal.

Eye contact May cause temporary eye irritation. There may be severe pain. The eyes may water

profusely.

Waste management When handling waste, consideration should be made to the safety precautions applying to

handling of the product. Handle empty containers with care. Incineration may cause

explosion. Non-contaminated packages may be recycled.

**Routes of entry** Eyes, skin, ingestion or inhalation.

**Target organs** Eyes, skin, digestive system, respiratory system.

Aspiration hazards: Reproductive toxicity: The product is not classified as an aspiration hazard. The product is not classified as a reproductive hazard.

Name	LD50 oral	LD50 dermal	LD50 inhalation
Ethanol	3450.00mg/kg Mouse		
methanol	5628.00mg/kg Rat		

#### 11.2 Information on other hazards

**Information on other hazards** None known.

## **Section 12: Ecological information**

# 12.1 Toxicity

Acute toxicity - Fish
No information available as testing has not been completed.
Acute toxicity - Aquatic invertebrates
No information available as testing has not been completed.
Acute toxicity - Aquatic plants
Acute toxicity - Microorganisms
Chronic toxicity - Fish
No information available as testing has not been completed.
No information available as testing has not been completed.
No information available as testing has not been completed.
No information available as testing has not been completed.

invertebrates

**Chronic toxicity - Aquatic plants Chronic toxicity - Microorganisms**No information

Ecotoxicity

No information available as testing has not been completed. No information available as testing has not been completed.

The product is not classified as environmentally hazardous. However, this does not exclude

the possibility that large or frequent spills can have a harmful or damaging effect on the  $\,$ 

environment.

**Eco toxilogical information** Not classified as dangerous for the environment according to the criteria of Regulation (EC)

No 1272/2008.

## 12.2 Persistence and degradability

**Degradability** Biodegradable.

**Biological oxygen demand**No information available as testing has not been completed. **Chemical oxygen demand**No information available as testing has not been completed.

### 12.3 Bioaccumulative potential

Bioaccumulative potential No bioaccumulation potential.

Bioaccumulation factor
Partition coefficient; nNo information available as testing has not been completed.
No information available as testing has not been completed.
Octanol/Water

12.4 Mobility in soil

**Mobility** Readily absorbed into soil.

## 12.5 Results of PBT and vPvB assessment

Results of PBT and vPvB assessment The product does not contain any PBT or vPvB Substances.

## 12.6 Endocrine disrupting properties

**Endocrine disrupting properties**The product does not contain any substances with endocrine disrupting properties at a

concentration above or equal to 0.1%.

12.7 Other adverse effects

Other adverse effects Do not allow to enter into ground-water, surface water or drains.

### **Section 13: Disposal considerations**

Waste management When handling waste, consideration should be made to the safety precautions applying to

handling of the product. Handle empty containers with care. Incineration may cause explosion. Non-contaminated packages may be recycled.

#### 13.1 Waste treatment methods

**Disposal methods** Dispose of waste and residues in accordance with local authority requirements.

## **Section 14: Transport information**

## 14.1 UN number or ID number

 UN no. (ADR)
 UN1263

 UN no. (IMDG)

## 14.6 Special precautions for user

EMS F-E, S-E
Emergency action code A3 A72 A192
Hazard no. (ADR) 33
Tunnel restriction code (D/E)

# 14.7 Maritime transport in bulk according to IMO instruments

Not applicable.

# **Section 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/Legislation specific for the substance or mixture

**EU legislation** Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16

December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation

(EC) No 1907/2006 with amendments.

Commission Regulation (EU) 2020/878 of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

**Approved code of practice** 2020 Code of Practice for the Safety, Health and Welfare at Work (Chemical Agents)

Regulations (2001-2015) and the Safety, Health and Welfare at Work (Carcinogens)

Regulations (2001-2019)

## 15.2 Chemical safety assessment

**Chemical safety assessment** No chemical safety assessment has been carried out.

## **Section 16: Other information**

General information This Safety Data Sheet is in accordance with Reach Regulation (EC) No 453/2010.

**Revision comments**This is a first issue. **Revision date**03 February 2021

Revision 1

Safety data sheet status Approved.

### **Hazard statements in full**

**H225** Highly flammable liquid and vapour.

H301 Toxic if swallowed.H311 Toxic in contact with skin.

**H331** Toxic if inhaled.

 $\mbox{{\it H370}} \qquad \qquad \mbox{{\it Causes damage to organs}} \; .$ 

EUH211 Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray

or mist.
