

Multi Purpose Filler Powder

Product Information Sheet

Description

Filler is specially formulated for repairs to plaster, plasterboard, wood, brick, stone and most other building materials. Ideal for preparing surfaces before painting or wallpapering. Use filler to fill cracks and holes in walls, ceilings and round doorframes and skirting boards. The filler gives a smooth surface perfect for wallpapering or painting.

Filler is easy to mix and simple to use. It does not shrink and has an excellent adhesive property which keeps the filler firmly in position. Easy sanded, giving a smooth surface which will take nails and screws when set. Suitable for exterior use providing it is sealed with paint or varnish, when dry

Mixing

Mix filler with cold water to a stiff paste. Approximately 2.5 parts filler to one part cold water. Use a thicker mix for deep cracks/holes. Always mix filler in a clean container.

Directions

Brush out loose material and dust from the crack or hole to be filled. Apply filler with trowel or knife and press firmly into cavity. Smooth off slightly proud of surface and when dry rub down with sandpaper. The filler stays workable for approximately 1.5 hours after mixing. Protect from moisture during curing period until sealed.

Finish

Filler Powder dries White and can be over painted without priming. If product is for exterior use ensure Filler is sealed with an oil based paint or varnish.

Cleaning

All tools and mixing bowls should be cleaned with warm water before Filler sets. Dirty tools can shorten setting times.

Health and Safety

This product is safe in normal use – See MSDS sheet for more information

Technical Data

Composition:	A specially formulated filler containing gypsum minerals, plaster, calcium magnesium carbonate, binders and set time modifiers.
Physical State:	Dry fine powder
Form/colour:	White to off white
Ph (SOLUTION)	6.5 – 7.8 (280g powder to 120g water)
Odour:	nil
Flammability:	Non Flammable

Packing Specification

Product / Pack Size	Quantity Per Carton	Cartons / Drums Per Pallet.
Standard Box (454 grams)	36	36
Decorators Box (1.5 Kilo)	10	45
9kg Sack (6 X 1.5kg)	1	50

Customs Tariff Code

3214 1090

Shipping Classification

Non-hazardous for shipping purposes
