**Product** Fleetwood Traditional Oil Based Undercoat

**Revision date** 12 November 2020 Revision 1

# FLEETWCC - for COLOURFUL LIVES -

# Safety Data Sheet (SDS)

according to Regulation (EC) No. 1907/2006

## Section 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

**Product name** Other means of identification

**Fleetwood Traditional Oil Based Undercoat** FH3X-TECE-M20N-3349

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses	Paint or paint related material.
Uses advised against	No uses advised against are identified.

#### **1.3 Details of the supplier of the safety data sheet**

Supplier	FSW Coatings Ltd.
	Virginia
	Co Cavan
	Ireland
	Tel: 353 49854 7209
	161. 555 49654 7269
Contact person	info@fsw.ie
1.4 Emergency telephone number	
Emergency telephone	+ 353 49854 7209 (Between 0900 and 1700 hrs Monday-Friday)
National emergency telephone	Outside those hours, contact National Poisons Information Centre, Beaumont Hospital.
5 5 1	
number	Members of Public: +353 (1) 809 2166. (8.00 a.m. to 10.00 p.m. 7 days a week) Healthcare

Professionals: +353 (1) 809 2566 (24 hour service)

#### **Section 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

2.1 Clussification of the substance of m	<u>Instare</u>
Classification (EC 1272/2008) Physical and chemical hazards Human health Environment 2.2 Label elements	Flam. Liq 3- H226 STOT SE 3 - H336 Not classified
Contains	Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics 1-methoxy-2-propanol nonane
Label in accordance with (EC) no. 1272/2008	
Signal word	Warning
Hazard statements	H226 Flammable liquid and vapour. H336 May cause drowsiness or dizziness.
Precautionary statements	<b>Prevention</b> P210 Keep away from heat/ sparks/open flames/hot surfaces. — No smoking. P233 Keep container tightly closed. P271 Use only outdoors or in a well-ventilated area.

Response

#### Page 1 of 10

	P370 + P378 In case of fire: Use foam, carbon dioxide, dry powder or water fog for extinction. <b>Storage</b> P403 + P235 Store in a well-ventilated place. Keep cool. P405 Store locked up.
EUH statements	EUH208 Contains Butanone oxime and Iron(1+), chloro[dimethyl 9,9-dihydroxy-3-methyl-2,4-di(2-pyridinyl-kN)-7-[(2-pyridinyl-kN)methyl]-3,7-diazabicyclo[3.3.1]- onane-1,5-dicarboxylate-kN3,kN7]-, chloride. May produce an allergic reaction.
2.3 Other hazards	

None known.

# Section 3: Composition/identification of ingredients

# 3.1 Substance

Not applicable.

# 3.2 Mixtures

Name	Product identifier	Regulation (EC) No 1272/2008	%
Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics	CAS-No.: EC No.: 919-857-5 REACH Reg No.: 01-2119463258-33-XXXX	Asp. Tox - H304, Flam. Liq 3- H226, STOT SE 3 - H336	20-30%
titanium dioxide	CAS-No.: 13463-67-7 EC No.: 236-675-5 REACH Reg No.: 01-2119489379-17-0002		10-20%
1-methoxy-2-propanol	CAS-No.: 107-98-2 EC No.: 203-539-1	Flam. Liq 3- H226, STOT SE 3 - H336	0.1-0.9%

The full text for all hazard statements are displayed in section 16.

## Section 4: First aid measures

4.1 Description of first aid measures	
General information	Provide general first aid, rest, warmth and fresh air. As a general rule, in case of doubt or if symptoms persist, always call a doctor. Seek medical attention for all eye injuries, regardless
	how minor they may seem. First aid personnel must be aware of own risk during rescue.
Inhalation	If this product is inhaled and symptoms occur, move the exposed person to fresh air
	promptly. If breathing is difficult, give oxygen. If breathing has stopped or the exposed
	person experiences difficulty in breathing, administer artificial respiration and seek
	immediate medical assistance.
Ingestion	Rinse mouth thoroughly. Provide fresh air, warmth and rest. Do not induce vomiting. Never
-	give anything by mouth if victim is unconscious, is rapidly losing consciousness or is
	convulsing. Seek medical advice (show the label where possible). If vomiting occurs, the
	head should be kept low so that stomach vomit doesn't enter the lungs.
Skin contact	Remove affected person from source of contamination. Remove contaminated clothing. Wash
	the skin immediately with soap and water. Get medical attention if any discomfort continues
	after rinsing.
Eve contact	Do not rub eye. Avoid contaminating unaffected eye. Remove contact lenses if present and
5	easy to do so. Promptly wash eye(s) with plenty of water while lifting the eye lids. Rinse with
	a gentle stream water for at least 15 minutes. Get prompt medical attention.
	- g

## 4.2 Most important symptoms and effects, both acute and delayed

General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
Inhalation	Exposure to product spray mists may be irritating to the respiratory system. May cause drowsiness or dizziness.
Ingestion	May cause discomfort if swallowed. May cause stomach pain or vomiting.
Skin contact	Prolonged contact may cause redness, irritation and dry skin. May cause an allergic skin reaction.
Eye contact	May cause temporary eye irritation.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Notes to the physician	Treat symptomatically.	
------------------------	------------------------	--

considerable distance.

Section 5: Fire-fighting measures	
5.1 Extinguishing media	
Extinguishing media	Use fire-extinguishing media appropriate for surrounding materials. Extinguish with foam, carbon dioxide, dry powder or water fog.
Unsuitable extinguishing media	Do not use water jet to extinguish fire.
5.2 Special hazards arising from the su	lbstance or mixture
Hazardous combustion products	Combustion may lead to the release of harmful vapours, including but not limited to oxides of carbon.
Unusual fire & explosion hazards	The product is classified as a flammable liquid and vapour. Vapours are heavier than air and may spread near ground to sources of ignition. Do not allow to enter drains, sewers,

**Specific hazards** 

## **5.3 Advice for firefighters**

Special fire fighting procedures	Ventilate closed spaces before entering them. Water spray should be used to cool containers.
	If possible, fight fire from protected position. Keep up-wind to avoid fumes.
Protective equipment for firefighters Fire-fighters should wear appropriate protective equipment and self-contained breathing	
	apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-
	fighters (including helmets, protective boots and gloves) conforming to European standard
	EN 469 will provide a basic level of protection for chemical incidents.

basements and workpits, or any place where its accumulation can be dangerous. Vapours may be ignited by a spark, a hot surface or an ember. Flash back possible over

# Section 6: Accidental release measures

6.1 Personal precautions, protective	equipment and emergency procedures
For non-emergency personnel For emergency responders	Provide adequate ventilation. In case of inadequate ventilation, use respiratory protection. Wear protective clothing as described in Section 8 of this safety data sheet. If necessary evacuate surrounding areas. Eliminate all sources of ignition. Avoid inhalation of vapours and contact with skin and eyes. Use non-sparking hand tools and explosion proof electrical equipment. Do not touch or walk through spilled material. Read and follow manufacturer's recommendations. Do not smoke, eat or drink while using this product. Follow safe handling advice and personal protective equipment recommendations for normal
<b>J</b>	use of product.
6.2 Environmental precautions	
<b>Environmental precautions</b>	Prevent any material from entering drains or waterways.
6.3 Methods and material for contair	<u>ment and cleaning up</u>
Spill clean up methods	Prevent further leakage or spillage if safe to do so. Ventilate and evacuate the area. Eliminate all sources of ignition. Wear necessary protective equipment. Dam and absorb spillage using a spill kit, sand, earth or other non-combustible material. Prevent entry to into sewers, water course, basement or confined areas. Use non sparking tools or equipment. Recover by pumping or with suitable absorbent. Place spilled material into suitable labelled sealed containers. Remove waste promptly to a safe area.
6.4 Reference to other sections	
Reference to other sections	See section 1 for emergency contact. For personal protection, see section 8. For waste disposal, see section 13.
Section 7: Handling and storage	
7.1 Precautions for safe handling	
Handling	Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Wear suitable personal protective equipment, as detailed in Section 8. Keep away from heat, sparks and open flame. Formation of sparks and static electricity must be prevented. Earth all equipment. Use only non-sparking tools. Avoid contact with skin and eyes. Avoid inhalation of vapours. Do not use contact lenses. Avoid prolonged or repeated contact. Read and follow manufacturer's recommendations. Keep container tightly closed.

# 7.2 Conditions for safe storage, including any incompatibilities

Storage precautions	Store in tightly closed original container in a cool, dry and well-ventilated place. Keep upright, locked up and out of reach of children.
Storage class	Flammable liquid storage.
7.3 Specific end use(s)	
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.
Usage description	Use only according to directions. Replace and tighten cap after use.

## Section 8: Exposure controls/Personal protection

## **8.1 Control parameters**

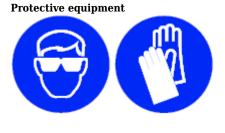

Component	STD	TWA (	8 Hrs)	STEL (15mins)		Notes

Ingredient comments

Ireland, Occupational Exposure Limits 2020. Workplace Exposure Limits Guidance Note EH40/2005.

## **8.2 Exposure Controls**

Engineering measures	Provide adequate ventilation, including appropriate local extraction, to ensure that the
	defined occupational exposure limit is not exceeded.
Respiratory equipment	Where risk assessment shows air-purifying respirators are appropriate a full face respirator
	conforming to EN 143 should be used, and suitable respirator cartridges as a backup to
	engineering controls. The specific respirator selected must be based on contamination levels
	found in the work place. Use respiratory protection as specified by qualified professional if
	concentrations exceed the limits listed in Section 8. Use respiratory equipment with gas
II	filter, type A: organic vapours (EN141). Consult manufacturer for specific advice.
Hand protection	Where hand contact with the product may occur the use of gloves approved to relevant
	standards (e.g. Europe: EN374) is recommended. Use chemical resistant gloves to minimize
	skin contact. Gloves must be inspected prior to use. Suggested material: Nitrile rubber.
	Break through time: 480 min. Layer thickness: 0.33 mm.
	Consult manufacturer for advice. Selection of the glove material depends on consideration of
	the penetration times, rates of diffusion and degradation, and concentration specific to the
	workplace. Use proper glove removal technique (without touching glove's outer surface) to
	avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices.
Eve protection	Wear safety goggles to prevent any possibility of eye contact. Use equipment for eye
Lyc protoction	protection tested and approved under appropriate government standards such as EN
	166(EU).
Other protection	Complete suit protecting against chemicals, flame retardant/anti-static.
Hygiene measures	Observe normal hygiene standards. DO NOT SMOKE! Wash hands after use. Wash promptly
	if skin becomes contaminated. When using do not eat, drink or smoke.
Process conditions	Ensure that eye flushing systems and safety showers are located close by in the work place.

# Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties			
Appearance Colour Odour	Viscous liquid. White. Slight hydrocarbon		
Odour threshold - lower	No information available as testing has not been completed.		
Odour threshold - upper	No information available as testing has not been completed.		

	pH-Value, Conc. Solution	Not applicable.
	-	
	pH-Value, Diluted solution	Not applicable.
	Melting point	May start to solidify at the following temperature: -15°C This is based on data for the following ingredient: Hydrocarbons, C14-C18, n-alkanes, isoalkanes, cyclics, < 2% aromatics. Weighted average: -58.2°C
	Initial boiling point and boiling range	>145°C
	Flash point	Closed cup 42°C
	Evaporation rate	Highest known value: 0.04 (Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics ) Weighted average: 0.03 compared with butyl acetate
	Flammability state	Liquid.
	Flammability limit - lower(%)	Lower: 0.6% (Hydrocarbons, C10-C13, nalkanes, isoalkanes, cyclics, < 2% aromatics ) $$
	Flammability limit - upper(%)	Upper: 7% (Hydrocarbons, C10-C13, nalkanes, isoalkanes, cyclics, $< 2\%$ aromatics )
	Vapour pressure	Highest known value: 0.1 to 0.3 kPa (0.8 to 2.3 mm Hg) (at 20°C) (Naphtha(petroleum), hydrotreated heavy). Weighted average: 0.16 kPa (1.2 mm Hg) (at 20°C)
	Vapour density (air=1)	Highest known value: 4.5 (Air = 1) (Hydrocarbons, C14-C18, n-alkanes, isoalkanes, cyclics, < 2% aromatics).
	Relative density	1.50 +/- 0.2
	Bulk density	No information available.
	Solubility	Insoluble in cold water
	Decomposition temperature	Stable under normal handling and storage conditions
	Partition coefficient; n- Octanol/Water	No information available as testing has not been completed.
	Auto ignition temperature (°C)	Lowest known value: >230°C (Hydrocarbons, C10-C13, n-alkanes, isoalkanes, cyclics, < 2% aromatics ).
	Viscosity	Kinematic (40°C): >0.21 cm <sup>2</sup> /s
	Explosive properties	Not classified as explosive.
	Oxidising properties	The product does not meet the criteria to be classified as oxidising.
9.2	Other information	
	Molecular weight	No information available.
	Volatile organic compound	299.00 g/litre
	Other information	Volume solids: 43.0% +/- 1.0%
		Weight Solids: 67.0 +/- 1.0%

Section 10: Stability and reactivity	
10.1 Reactivity	
Reactivity	Stable under recommended transport and storage conditions and under recommended use.
10.2 Chemical stability	
Stability	Stable under normal temperature conditions and recommended use.

10.3 Possibility of hazardous reactions	
Hazardous reactions Hazardous polymerisation Polymerisation description	Avoid contact with oxidising agents, strong alkalis, and strong acids. No information available. Unknown.
<b>10.4 Conditions to Avoid</b>	
Conditions to avoid	Heat, sparks, open flames, temperature extremes and direct sunlight.
10.5 Incompatible materials Materials to avoid	Avoid contact with oxidising agents, strong alkalis, and strong acids.
10.6 Hazardous decomposition products	

Hazardous decomposition products Thermal decomposition or combustion may liberate carbon oxides and other harmful gases or vapors.

## Section 11: Toxicological information

## **11.1 Information on toxicological effects**

Toxicological information	No toxicological information for the overall finished product.
Acute toxicity (Oral LD50) Acute toxicity (Dermal LD50) Acute toxicity (Inhalation LD50)	No information available as testing has not been completed. No information available as testing has not been completed. No information available as testing has not been completed.
Serious eye damage/irritation	May cause temporary eye irritation.
Skin corrosion/irritation	The product is not classified as a skin corrosion/irritation hazard.
Respiratory sensitisation Skin sensitisation	The product is not classified as a respiratory hazard. The product is not classified as a skin sensitisation hazard.
Germ cell mutagenicity	The product is not classified as a mutagen.
Carcinogenicity	The product is not classified as a carcinogen hazard.
Specific target organ toxicity - Sing STOT - Single exposure Specific target organ toxicity - Repo STOT - Repeated exposure	The product is classified as a single exposure specific target organ toxin.
Inhalation	Exposure to product spray mists may be irritating to the respiratory system. May cause drowsiness or dizziness.
<b>T</b>	
Ingestion	May cause discomfort if swallowed. May cause stomach pain or vomiting.
Ingestion Skin contact	May cause discomfort if swallowed. May cause stomach pain or vomiting. Prolonged contact may cause redness, irritation and dry skin. May cause an allergic skin reaction.
5	Prolonged contact may cause redness, irritation and dry skin. May cause an allergic skin

## 12.1 Toxicity

Acute toxicity - Fish	No information available as testing has not been completed.
Acute toxicity - Aquatic invertebrate	<b>s</b> No information available as testing has not been completed.
Acute toxicity - Aquatic plants	No information available as testing has not been completed.
Acute toxicity - Microorganisms	No information available as testing has not been completed.
Chronic toxicity - Fish	No information available as testing has not been completed.
Chronic toxicity - Aquatic	No information available as testing has not been completed.
invertebrates	
Chronic toxicity - Aquatic plants	No information available as testing has not been completed.
Chronic toxicity - Microorganisms	No information available as testing has not been completed.
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude
Ū	the possibility that large or frequent spills can have a harmful or damaging effect on the
	environment.
Eco toxilogical information	Not classified as dangerous for the environment according to the criteria of Regulation (EC)
<u> </u>	No 1272/2008.
<b>12.2 Persistence and degradability</b>	
Degradability	The degradability of the product has not been stated.
Biological oxygen demand	No information available as testing has not been completed.
Chemical oxygen demand	No information available as testing has not been completed.
enernen enjgen uemana	
<b>12.3 Bioaccumulative potential</b>	
<b>Bioaccumulative potential</b>	No data available on bioaccumulation.
Bioaccumulation factor	No information available as testing has not been completed.
Partition coefficient; n-	No information available as testing has not been completed.
Octanol/Water	No information available as testing has not been completed.
Octanol/ Water	
<b>12.4 Mobility in soil</b>	
M-L-114	Terebuble in cold system
Mobility	Insoluble in cold water.

## **12.5 Results of PBT and vPvB assessment**

Results of PBT and vPvB assessment The product does not contain any PBT or vPvB Substances.

## **12.6 Other adverse effects**

Other adverse effects

None known.

Name	toxicity	Acute toxicity (Aquatic invertebrates)	(Aquatic

## Section 15: Regulatory information

### 15.1 Safety, health and environmental regulations/Legislation specific for the substance or mixture

EU legislation	Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 with amendments. The UN Globally Harmonized System (GHS) Safety Data Sheet format (Annex IV) is implemented as Annex II of REACH EU No 830/2015 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).
Approved code of practice	2020 Code of Practice for the Safety, Health and Welfare at Work (Chemical Agents) Regulations (2001-2015) and the Safety, Health and Welfare at Work (Carcinogens) Regulations (2001-2019)
	Workplace Exposure Limits Guidance Note EH40/2005.
Chemical safety assessment	No chemical safety assessment has been carried out.

Section 16: Other information	
General information	This Safety Data Sheet is in accordance with Reach Regulation (EC) No 453/2010
<b>Revision comments</b>	This is a first issue.
Revision date	12 November 2020
Revision	1
Safety data sheet status	Approved.

#### Hazard statements in full

EUH066	Repeated exposure may cause skin dryness or cracking.
H226	Flammable liquid and vapour.
H304	May be fatal if swallowed and enters airways.
H336	May cause drowsiness or dizziness.
H312	Harmful in contact with skin.
H317	May cause an allergic skin reaction.
H318	Causes serious eye damage.
H351	Suspected of causing cancer .
H301	Toxic if swallowed.
H373	May cause damage to organs through prolonged or repeated exposure .
H412	Harmful to aquatic life with long lasting effects.
H361	Suspected of damaging fertility or the unborn child .
H315	Causes skin irritation.
H411	Toxic to aquatic life with long lasting effects.
H332	Harmful if inhaled.
H335	May cause respiratory irritation.
H319	Causes serious eye irritation.
H410	Very toxic to aquatic life with long lasting effects.
H360	May damage fertility or the unborn child .
EUH208	Contains Butanone oxime and Iron(1+), chloro[dimethyl 9,9-dihydroxy-3-methyl-2,4- di(2-pyridinyl-kN)-7-[(2-pyridinyl-kN)methyl]-3,7-diazabicyclo[3.3.1]n- nane-1,5-dicarboxylate-kN3,kN7]-, chloride. May produce an allergic reaction.
